🩸 Worldview and Vision

What's our point of view?

The shadows of Lust, Greed, Anger, and Jealousy are displayed in everyone, more or less, hidden or obvious.

Only by facing the inferiority of human nature can we return to a state of freedom and truly achieve happiness in this world.

What's the vision?

Through playing the game, we also want us to reflect on our own inadequacies.

Be honest and braver to live a better life.
